

E-Commerce to USA – Price List

Dear customers,

We are pleased to announce a new service to the US within the E-Commerce services.

The service is designed for multi-package delivery. The minimum amount is 20 packages for a pickup by our company. This service is excellent for sending books, catalogs, newspapers and various products sold online.

As part of the service, we will pick up the shipments and send them to the logistics center in the USA. From there the shipments will be distributed via UPSMI and the American mail USPS.

Estimated delivery time from the moment the packages arrive in the United States is 4-7 business days.

Please note that in order to generate Air Way Bills with an American tracking number, you must enter the software - AME Online.

Remarks

- The weights indicated in the price list are up to 20 kg, but you can receive offers for higher weights.
- The price list is stated in INS.
- The price list changes according to the international postal prices in the world and jet fuel prices, so it is possible that changes will be applied during the year.

Best regards,

Air Mail Express Ltd
